

LUKOIL LUBE GF

ropy lubricants speciality with adhesive and extreme pressure additives, especially developed for the timber industry

APPROVALS

MEETS REQUIREMENTS

According to DIN 51502 classified both as CLP (high-pressure gear oils) as well as CGLP (slideway oils with anti-aging and EP additives).
FZG Load Carrying Capacity acc. to DIN ISO 14635-1 A/8,3/90-M: >12

PRODUCT DESCRIPTION

Series oils **LUKOIL LUBE GF** distinguished by excellent load carrying capacity, excellent adhesion, good corrosion protection and resistance to aging. A particularly polar acting additive combination prevents "stick-slip" - phenomena (stick-slip) at slow sliding speeds. The high affinity to metal surfaces ensures low lubricant consumption and economic use.

Series oils **LUKOIL LUBE GF** are neutral towards paints, sealing materials and elastomers.

APPLICATION

For sliding and guiding paths from high-speed reciprocating saws, gears and other lubricating points, provided that the nature and location of the viscosity machine manufacturer complies with regulations. Series oils **LUKOIL LUBE GF** meets the requirements of ESTERER, LINK and WURSTER & DIETZ.
